

Aviation English & ICAO Communication Skills

Clear communication when every detail matters.

For pilots and air traffic controllers | Specialised One-to-One or Bespoke Group Training

Our specialist language-development training helps aviation professionals communicate with clarity, accuracy and confidence. Through realistic scenarios and targeted practice, you will strengthen listening and speaking skills, apply effective clarification and repair strategies, and use plain English when situations are non-routine — all within the internationally recognised ICAO language framework.

Develop the communication skills aviation demands

01

Hear critical detail accurately

Strengthen listening for callsigns, numbers, instructions and other essential information.

02

Communicate clearly under pressure

Improve intelligibility, pace, structure and precision when workload increases.

03

Clarify before meaning is lost

Use specific strategies to check, correct, confirm and repair communication rather than guess.

04

Handle the unexpected in plain English

Explain situations, intentions, causes and consequences when routine language alone is not enough.

05

Understand your ICAO language profile

Use the six ICAO language areas to recognise strengths and identify practical priorities for further development.

Who is this for?

- Pilots
- Air Traffic Controllers
- Aviation trainees and professionals
- Recommended level: CEFR B1–B2

By the end of the programme

- ✓ Communicate more clearly in aviation-related situations.
- ✓ Identify and transmit critical information accurately.
- ✓ Clarify, check, correct and confirm rather than guess.
- ✓ Use clear, plain English in non-routine situations.
- ✓ Improve intelligibility, fluency and interaction.
- ✓ Understand how the ICAO descriptors relate to your personal development priorities.

- 📋 Pre-course needs analysis
- 📍 Face-to-face in Malta
- 📜 Alpha Certificate of Attendance

The ICAO Language Framework

- 🗣️ Pronunciation
- 🗂️ Structure
- 📖 Vocabulary
- 🗣️ Fluency
- 🧠 Comprehension
- 🗣️ Interactions

This is a language-development and ICAO familiarisation course. It is not an official ICAO or EASA language proficiency examination, does not award an ICAO level, and does not replace approved operational or radiotelephony phraseology training.
